Quanergy is a technology company that develops smart sensing solutions, time-of-flight LiDAR sensors and perception software for real-time 3D mapping and object detection, tracking, and classification.

Quanergy Systems' solutions are applicable in numerous sectors. In transportation, the data will be utilized to greatly improve the accuracy and reliability of on-board driver safety systems and enhance them with object recognition and scenario analysis capability. The data can also enable autonomous driving in the future.
